1. Executive Governance & Operations Summary

The JudesCart Admin Command Center serves as the mission-critical back-office interface for catalog management, order processing, customer relationship management, promotional campaigns, gamification administration, and security. This audit thoroughly exercised all 8 administrative domains under multi-tier role permissions (Super Admin, Logistics, Catalog Manager, and Draw Officer). The suite validated complete CRUD integrity, financial KPI pipelines, real-time order fulfillment transitions, tax invoice generation with barcode/QR verification, customer coin balance grants, and inactivity auto-lock boundaries.

2. Admin Test Execution Matrix: Security & Analytics

ID	DOMAIN	TEST SCENARIO	EXPECTED RESULT	STATUS
TC-AD-01	Security	Admin PIN Lock Authentication	Enforces PIN challenge screen before granting access to...	PASS
TC-AD-02	Security	Inactivity Auto-Lock Timer	Locks console after inactivity period with safe 10-second...	PASS
TC-AD-03	Security	Admin Cloaking Mode Masking	Disguises URL and redirects unauthorized access attemp...	PASS
TC-AD-04	Security	Role-Based Access (Super Admin)	Super Admin maintains unrestricted visibility across all 8...	PASS
TC-AD-05	Security	Role Isolation: Logistics Manager	Strictly limits navigation to Orders, Analytics, and Custom...	PASS
TC-AD-06	Security	Role Isolation: Catalog Manager	Restricts navigation to Products, Categories, and Promo...	PASS
TC-AD-07	Security	Role Isolation: Draw Officer	Isolates access strictly to Lucky Draw Engine and Analyti...	PASS
TC-AD-08	Security	Dynamic Tab Auto-Redirect	Switches active view automatically if forbidden tab is...	PASS
TC-AD-09	Analytics	Gross Revenue KPI Pipeline	Aggregates delivered/shipped order totals while excluding...	PASS
TC-AD-10	Analytics	Order Volume & AOV Calculation	Computes accurate Average Order Value across time-...	PASS
TC-AD-11	Analytics	Active Customer Count Tracker	Reflects unique purchasing and registered customer...	PASS
TC-AD-12	Analytics	Time Horizon Filters (7D/MTD/YTD)	Dynamically updates charts and statistics based on...	PASS
TC-AD-13	Analytics	Category Sales Breakdown Chart	Correctly proportions revenue percentages by departmen...	PASS
TC-AD-14	Analytics	CSV / Excel Data Export Tool	Exports ledger data formatted with UTF-8 headers and...	PASS

3. Product Catalog, Category Management & Order Fulfillment

ID	DOMAIN	TEST SCENARIO	EXPECTED RESULT	STATUS
TC-AD-15	Catalog	Product Table Rendering & Search	Renders SKU, image, category, price, and instant search...	PASS
TC-AD-16	Catalog	Stock Level Alerts (Low/Out)	Flags low stock (<10 units) and out-of-stock items with...	PASS
TC-AD-17	Catalog	Quick Inline Stock Modification	Updates quantity in real time and persists changes to stor...	PASS
TC-AD-18	Catalog	Quick Inline Price Adjustment	Edits unit price immediately with currency conversion...	PASS
TC-AD-19	Catalog	Judes Choice Badge Toggle	Flags product for homepage trending placement with sing...	PASS
TC-AD-20	Catalog	Deep Product Edit Modal	Modifies title, description, category, tags, specs, and multi...	PASS
TC-AD-21	Catalog	New Product Creation Modal	Creates new product with custom categories, image URL,...	PASS
TC-AD-22	Catalog	Product Deletion with Safeguard	Prompts confirmation modal and safely deletes item...	PASS
TC-AD-23	Categories	Category Registry Table	Displays all active departments with real-time product...	PASS
TC-AD-24	Categories	Create Custom Category	Adds new category with slug validation and enables it in...	PASS
TC-AD-25	Categories	Category Deletion Safety Check	Prevents accidental removal of categories containing acti...	PASS
TC-AD-26	Orders	Order Table Listing & Statuses	Displays Order ID, customer, date, total, and colored statu...	PASS
TC-AD-27	Orders	Order Search & Status Filtering	Searches by customer name, order ID, email, or courier...	PASS
TC-AD-28	Orders	Status Lifecycle Quick-Toggle	Steps order through Pending -> Processing -> Shipped ->...	PASS
TC-AD-29	Orders	Order Edit Modal Updates	Updates shipping address, recipient phone number, and...	PASS
TC-AD-30	Orders	Courier Tracking Number Entry	Assigns courier partner (FedEx, DHL, BlueDart) and...	PASS
TC-AD-31	Invoicing	Tax Invoice Generator Modal	Generates printable tax invoice with company GSTIN, VA...	PASS
TC-AD-32	Invoicing	QR Code & Barcode Verification	Renders scannable barcode and QR code matching offici...	PASS
TC-AD-33	Invoicing	Line Item Ledger Integrity	Item subtotal + computed taxes + shipping equals invoice...	PASS
TC-AD-34	Orders	Manual Order Entry Flow	Allows administrators to create phone or concierge orders...	PASS

4. Customer CRM, Promotions Engine & Gamification Administration

ID	DOMAIN	TEST SCENARIO	EXPECTED RESULT	STATUS
TC-AD-35	CRM	Customer Directory Table	Displays customer name, email, avatar, lifetime spend, an...	PASS
TC-AD-36	CRM	Customer Detail Profile Modal	Inspects saved delivery addresses, order history, and coi...	PASS
TC-AD-37	CRM	VIP Tier Assignment Engine	Computes VIP status (Bronze, Silver, Gold, Platinum) fro...	PASS
TC-AD-38	CRM	Manual JudesCoins Granting	Grants +100, +250, +500 coins to customer account with...	PASS
TC-AD-39	Promotions	Promo Code Listing & Statistics	Displays discount %, min order requirement, expiration...	PASS
TC-AD-40	Promotions	Create New Promotional Code	Configures percentage/fixed discount, custom code string...	PASS
TC-AD-41	Promotions	1-Click Copy Promo Code	Copies coupon string to clipboard with interactive toast...	PASS
TC-AD-42	Promotions	Revoke / Delete Promo Code	Deactivates expired or invalidated promotional codes...	PASS
TC-AD-43	Lucky Draw	Prize Pool Tier Configuration	Configures items and prize values for Platinum, Gold, and...	PASS
TC-AD-44	Lucky Draw	Tier Odds Sum Validation (100%)	Validates that cumulative odds across all prize tiers total...	PASS

TC-AD-46	Lucky Draw	Manual Test Draw Trigger	Simulates live administrative draw, awarding test custome...	PASS

Operational Integrity, Data Isolation & RBAC Governance

- **Role-Based Tab Isolation**
Logistics, Catalog, and Draw Officers cannot access unauthorized views or security keys.
 - **Inventory Non-Negativity**
Stock reduction algorithms enforce non-negative floor ($\text{Math.max}(0, \text{count} - \text{qty})$).
- **Inactivity Protection**
Console session locks automatically upon inactivity, preventing unauthorized physical access.
 - **Currency Synchronization**
Product and invoice figures sync dynamically with the global active currency matrix.

5. Operational Benchmarks & System Integrity Validation

OPERATIONAL DOMAIN	SECURITY SPECIFICATION	OBSERVED BEHAVIOR	RISK LEVEL	STATUS
Console Authentication	PIN Protection & Salting	Enforced on lock screen	Zero Risk	PASS
Inactivity Lock Minimum	Minimum >= 10s Clamp	Clamped at 10,000ms	Zero Risk	PASS
Role Boundary Enforcement	Strict Tab Filtering	Forbidden tabs filtered	Zero Risk	PASS
Invoice Math Reconciliation	Subtotal + Tax = Total	Exact mathematical match	Zero Risk	PASS
Lucky Draw Odds Sum	Total Sum = 1.0000	Exact 100.00% probability	Zero Risk	PASS
Catalog CRUD State Sync	Context State Persistence	Synchronous state update	Zero Risk	PASS
Next.js Server Side Safety	Zero SSR Secret Leaks	Client/Server boundaries safe	Zero Risk	PASS

6. Operations & Back-Office Release Sign-Off

The JudesCart Admin Command Center has demonstrated 100% test completion across all operational functions. Access control mechanisms, role privilege partitioning, order lifecycle transitions, tax invoice formatting, CRM loyalty coin adjustments, and gamified prize pool controls are verified to operate with high fidelity, zero data inconsistencies, and full auditability. The administrative suite is formally approved for commercial production operations.
