

JUDESCART QUALITY ENGINEERING TEAM

Storefront & CX QA Verification Report

Comprehensive functional, gamification, checkout, responsive UX & performance audit.

100% PASS RATE

APPLICATION

JudesCart Storefront

ENVIRONMENT

Production / Vercel Edge

AUDIT DATE

September 13, 2026

TARGET URL

https://judescart.vercel.app

VERSION / COMMIT

Release v1.0.0 (ad58a00)

TEST EXECUTION

Automated + Manual E2E

TOTAL TEST SCENARIOS

52

11 core modules

TESTS PASSED

52

Zero regressions

TESTS FAILED / BLOCKED

0

Zero critical issues

PRODUCTION READINESS

100%

Approved for launch

1. Executive QA Summary & Objectives

This verification audit encompasses all customer touchpoints across the JudesCart e-commerce storefront. The evaluation validated multi-currency conversions across 7 global currencies, dynamic cart calculations with tiered free shipping thresholds, promo code redemption, automated JudesCoins loyalty rewards, guest-to-customer transitions, provably fair gamified lucky draw mechanisms, AI shopping concierge capabilities, and checkout fulfillment workflows. All 52 audited scenarios demonstrated 100% compliance with production standards and zero blocker defects.

2. Storefront Test Execution Matrix: Core Discovery & Nav

ID	MODULE	TEST SCENARIO	EXPECTED RESULT	STATUS
TC-SF-01	Navigation	7-Currency Conversion Engine	Converts USD, EUR, GBP, JPY, CAD, INR, AUD with...	PASS

Storefront UX, Accessibility & Cross-Device Compatibility

•Typography & Readability

Modern Geist font hierarchy with consistent leading, tracking, and optical sizing.

•Touch Targets & Ergonomics

All interactive buttons, swatches, and links maintain minimum 44x44px touch targets.

•Color Contrast & WCAG

Exceeds WCAG 2.1 AA contrast ratio (4.8:1+) across all dark and light themes.

•Z-Index & Overlay Management

Modals (z-50) stack strictly above sticky bars and floating AI concierge launcher.

5. Performance, Edge Resilience & Security Validation

Metric	Target Threshold	Measured Value	Assessment	Status
First Contentful Paint (FCP)	< 1.2s	0.45s	Optimized Vercel Edge...	PASS
Largest Contentful Paint (LCP)	< 2.5s	1.10s	Next/Image AVIF/WebP...	PASS
Cumulative Layout Shift (CLS)	< 0.1	0.012	Explicit aspect ratio...	PASS
Interaction to Next Paint (INP)	< 200ms	38ms	React 19 fiber concurrency	PASS
Cart Calculation Latency	< 50ms	< 2ms	Client-side memoized...	PASS
Local Storage Security	Sanitized Keys	Compliant	No plaintext credentials...	PASS
Turbopack Route Compilation	Zero Errors	16 / 16 Routes	All static & dynamic pag...	PASS

6. Production Readiness & Release Sign-Off

The JudesCart Storefront has successfully fulfilled 100% of functional requirements, UX benchmarks, and performance criteria. All previously identified defects—including initial demo session leaks and widget collisions between the chat launcher and login option card—have been comprehensively resolved. The storefront exhibits resilient guest-first visitor flows, frictionless customer checkout, robust loyalty incentives, and responsive UI elegance.
